PROFESSIONAL SUMMARY

First-year Computer Science Engineering student (AI & Data Science track) with a 9.38 SGPA in an inaugural semester. Comfortable in Python and core web fundamentals (HTML5, CSS3, Bootstrap), with hands-on exposure to Git-based version control and prototyping workflows. Early-stage but building fast.

EDUCATION

B.E. in Computer Science & Engineering (Artificial Intelligence & Data Science)

Sapthagiri NPS University, Bengaluru, Karnataka | 2025 – 2029

- Semester 1 SGPA: **9.38**
- Core Coursework: Python Programming, Web Foundations, Data Science & AI Frameworks

TECHNICAL SKILLS

- **Programming:** Python
- **Web Development:** HTML5, CSS3, Bootstrap
- **Version Control & Tools:** Git, GitHub, Visual Studio Code
- **Prototyping / No-Code Tools:** Lovable, Google Stitch, Antigravity (used for rapid UI prototyping and prompt-based generation, not a substitute for hand-written code)

TECHNICAL PROJECTS

AI Prompt Enhancement Platform | Python, HTML5, CSS3, Bootstrap

- Built a web app in Python that restructures raw text input into clearer, better-formed prompts for LLMs.
- Implemented a mobile-first, responsive interface using Bootstrap.

Student Performance Analytics Dashboard | Python, Data Analysis, Data Visualization

- Wrote Python scripts to aggregate and visualize academic KPIs and SGPA trends across semesters.
- Isolated and reported individual performance metrics from processed datasets.

Personal Portfolio & Resume Site | Lovable, Google Stitch, Git, GitHub

- Prototyped a responsive personal site using AI-assisted no-code tools (Lovable, Google Stitch), then refined markup and content by hand.
- Managed version control and deployment through Git and GitHub.

CERTIFICATIONS & ACHIEVEMENTS

- Completed core software foundation and tech-pathway training via **Infosys Springboard**.

CORE STRENGTHS & LANGUAGES

- **Strengths:** Analytical thinking, problem decomposition, Git-based collaboration workflows.
- **Languages:** English (Professional), Kannada (Native), Hindi (Conversational).
